Neuro-Linguistic Programming Workshop

March 18, 2011 or October 21, 2011 -- 7:30 AM till Noon at the Legacy Training Room
Or call to arrange additional dates

1860 Campus Place
Louisville, KY 40299

The Workshop

This is a half-day program built around key NLP tools of immediate value. Our “theory” will be limited to that which is needed to understand the tools. This is a practical approach to getting results quickly. Three key areas will be considered:

1. Take control of your thoughts, emotions, and behaviors.
   - Identify clear outcomes in all areas of your life.
   - Eliminate limiting beliefs and decisions.
   - Release unwanted emotions and behaviors from the past.

2. Business Communications—Influence and Persuade
   - Hiring the best candidates for your company.
   - Creating strong partnerships with your customers, vendors, and suppliers.
   - Improve results in negotiations.

3. Management / Coaching
   - Quickly analyze and understand an employee’s or team member’s communication style.
   - Facilitate meetings and sales presentations.
   - Easily resolve conflicts and build agreements around goals.

What Is NLP?

NLP, or Neuro-Linguistic Programming, is the science of how the brain codes learning and experience.

This coding affects all communication and behavior. It affects how you learn and how you experience the world around you. It is a key to reaching goals and achieving excellence.

NLP provides tools and skills for the development of excellence, and establishes a system of empowering beliefs and presuppositions about our thoughts, our communication and effective change.
NLP in Business

- Implement effective organizational change.
- Maximize sales and customer service performance.
- Excel at persuasion and influence.

NLP in Personal Life

- Become more motivated and happy.
- Eliminate limiting beliefs and live your full potential.
- Communicate effectively—at work, home, and with yourself.
